Start Here

Read the assignment:

- Assignment.pdf

Configure your development environment, refer to this video:

- "Modules--> Instructional Recordings" on Canvas (you may also use Visual Studio, if that is convenient to you)

Unzip:

- SupermarketReceipt.zip

In your Rider (Visual Studio) IDE open:

- SupermarketReceipt.sln

Compile and execute all tests, refer to video:

- "Modules--> Instructional Recordings" on Canvas

Complete the assignment, refer to:

- Assignment.pdf

Zip your entire modified SupermarketReceipt directory, the directory that contains:

- SupermarketReceipt.sln

Upload your Zip and document listing the identified problem types and their solutions to Canvas **as a submission to Assignment-4-ImplementationPart.**
